Shreyash Chaudha

Data Science | SQL | Generative & Agentic AI

+91 70670 99093 | shreyashchaudha@gmail.com | linkedin.com/in/shreyashchaudha | github.com/VINNU7890

PROFESSIONAL SUMMARY

Data Science and AI Engineering student with hands-on experience in three connected areas: data analysis (Python, Pandas, EDA, Power BI), SQL (MySQL, SQLite, cleaning and querying 1M+ records) and AI (RAG pipelines, multi-agent systems with LangGraph, Generative AI apps on Google Gemini). Currently completing a Data Science course while building end-to-end projects that link clean data, SQL-backed storage and LLM-powered applications. Runs a public 45-day AI Engineering challenge on LinkedIn.

EDUCATION

B.Tech in Computer Science Engineering — LNCT University, Bhopal 2023 – 2027 (Pursuing)

Relevant Coursework: Data Science · Natural Language Processing · Generative AI · R Programming · Design Thinking

TECHNICAL SKILLS

- **Data Science:** Python · Pandas · NumPy · EDA · Data Cleaning · Data Visualization · Power BI · Excel · Statistics & Machine Learning (currently learning)
- **SQL & Databases:** SQL · MySQL · SQLite · Data Extraction & Transformation
- **Generative & Agentic AI:** LLMs · Prompt Engineering · LangChain · LangGraph · LangSmith · Google Gemini API · OpenAI API · Multi-Agent Systems
- **RAG & Vector DB:** RAG Pipelines · ChromaDB · Vector Embeddings · Semantic Search · Document Q&A
- **Backend & Tools:** FastAPI · REST APIs · Git · GitHub · Docker (Basics)

PROJECTS

Data Cleaning & EDA on 1M+ User Records | *Python · MySQL · Pandas · NumPy* 2025

- Cleaned and transformed 1M+ user records, handling duplicates, missing values, inconsistent formatting and outliers.
- Performed exploratory data analysis to surface behavioral trends, correlations and actionable business insights.

ShreyGPT — Personal Agentic AI Assistant | *LangGraph · LangChain · ChromaDB · SQLite · FastAPI · Google Gemini* 2025 – Present

- Designed a multi-node LangGraph agent orchestrating Web Search, RAG document Q&A, Math and Memory in one agent loop.
- Built a RAG pipeline with ChromaDB supporting PDF, DOCX and TXT ingestion with semantic chunking and embeddings.
- Stored persistent conversation memory in SQLite via SQLAlchemy for context-aware multi-turn sessions.
- Served through FastAPI with real-time streaming and LangSmith tracing for observability, using zero paid APIs.

FRIDAY — Personal AI Agent | *Python · Agentic AI · LangChain · NLP* 2025

- Built an AI assistant with natural language understanding, voice interaction and modular task management.
- Applied multi-agent concepts for dynamic tool routing and autonomous decision-making based on user intent.

CERTIFICATIONS

- Data Science Specialist — Internshala | In progress
- Building AI Agents with Snowflake Cortex — GeeksforGeeks | 2026
- Building Generative AI Apps to Talk to Your Data — GeeksforGeeks | 2026
- The Complete AI Coding Course (Cursor, Claude Code) — Udemy | 2026

CONTENT CREATION & COMMUNITY

LinkedIn AI Engineering Blogger — 45-Day Public Learning Challenge 2025 – Present

- Post daily on RAG, LangGraph, Agentic AI, Multi-Agent Systems and LLMs, simplifying complex concepts for a growing learner community.
